it seem like it might be  
that way. And how did I  
get to trust that  
singular authentic being  
thats beyond any category  
or limitative descriptions  
? Well it started to  
happen after I realised I  
was angry, that was a  
big step. I was having on  
one side, my loved ones  
who were intimately ready  
to forget about me to  
protect the secret of  
the flame, while on the  
other side were aggressive  
men who were looking for  
somethings that were  
parts of me which I could  
not hide from their  
psychic powers, exepct by  
acting exactly like them.  
The philosophy behind this  
was that on the dark or  
agressive side the power  
was distributed in a more  
adolescent way, hinting of  
a second archetype that  
does not follow physical  
rules of any sort, that  
seemingly can defy the  
ultimate being, so  
amounting to the general  
doubt again, is that thing  
actually the container of  
the content of the  
ultimate being. A question  
that seemingly makes no  
sense but that is  
accepted in a subconscious  
way, so confused the  
knowledge of the general  
people is in both realms.  
Two in one, that is the  
nature of everybody. So  
since you now see what I  
mean I will proceed. I  
started to realise that

people were kind of  
getting jerky out there  
so much that the  
pressure from the new  
repartition of power  
increased dramatically,  
photons and dream were  
troubled. Of course they  
would manage their daily  
life and look like good  
meaning folks, but inside  
there is a new playing  
field, which is the  
fantasy of any being that  
ever engaged in  
entertainment. Which is  
the tennant of which I  
was gleefully revealing :  
as that person embodied  
the avatar through the  
crystal of quartz which  
is at the source of all  
communications he would  
find himself edgy about  
it, thinking to himself for  
example : `freakin 5  
hours of mining again and  
I have a wife and children  
to take care of and when  
will I be cool enough to  
match the flow and have  
some pleasure gracing  
others with my skills.`  
You all know how it is,  
sometimes there is  
confusion as to where  
the soul takes direction,  
because there was so  
many ways. And this is  
when Sosaria became  
fractal that it became a  
dynamic part of peoples  
dreams, where much of  
the world health and  
general fluidity of  
manifestations became  
affected. I will stop this  
now, I am fading, I shall  
be back and continue my  
work, but heed my  
warnings for I am a  
prophet.

I love you brothers and  
sisters in the one  
hologram.
